

B.D.M. INTERNATIONAL

NOTICE

Dear Parents,

As per the Order from the Govt., the school will remain closed till the 15th of April, 2020. As a responsible institution, it is our bounden duty to abide by the Government notification for strict compliance, in view of the threat of the COVID-19 pandemic.

However, it may be intimated that the exact date of opening of the School (in line with the direction of the Govt.) and resumption of classes for the Session 2020-21 will be communicated through the School Website/Social Media/SMS.

Report Cards have already been handed over for the Session 2019-20, and it was possible only with the kind cooperation and support extended by the parents.

Book-Lists have also been handed over, but regarding the procurement of the books as per the Book-List, the vendors have reportedly been making necessary arrangements, so that the books can be made available, before the classes resume, and normalcy is restored. In view of the unprecedented situation through which the Country is passing, parents are earnestly solicited kindly to bear with the inconvenience, if any.

Parents are also requested to spend some quality time with their children and also to ensure that they do not get detached from learning new things, which they may also enjoy.

For Classes X & XII, we are trying to make arrangements for facilitating online classes and assignments, as the completion of their Syllabus is linked to the CBSE. We have already started getting help and support from our students in this direction. It may kindly be appreciated that all arrangements have to be made afresh, as we have all been passing through a very difficult time. We are confident that with your help, support and cooperation, we will definitely be able to overcome this crisis.

With Regards
Principal
